

## Maud Borup Recognized Second Year as ‘100 Best Companies to Work For’

### *Employees Give High Marks for Well-Being and Happiness*

(Minneapolis, MN) March 31, 2015 – Maud Borup Inc. and *eco eggs*® today announce the second year of being honored on the list of ‘100 Best Companies to Work For’ by *Minnesota Business* magazine. The honor is awarded to companies that set the highest standards for employee well-being and overall happiness.

Maud Borup and *eco eggs* were selected by an independent research firm that uses professional research technologies combined with an anonymous online questionnaire filled out by employees to determine companies that excel in areas such as work environment, employee benefits, how employees feel they are treated, and overall employee happiness.

“A great place to work is about great people. Each employee contributes to who we are and where we are going. It is not just leadership that drives a positive workplace, it is each and every person,” comments Christine Lantinen, President, Maud Borup and *eco eggs*.

Maud Borup and *eco eggs* will be featured in *Minnesota Business* magazine’s June 2015 issue and a celebration at The Depot Renaissance Minneapolis Hotel will be held to recognize Maud Borup, *eco eggs*, and other honorees.

#### **About Maud Borup Inc.**

Maud Borup is a 108-year-old, privately-held, woman-owned, Minnesota-based wholesale confections company specializing in gourmet candy, savory snacks, creative baking kits, beverage mixes, and seasonal food gifts that whisk you back to memories of Grandma’s favorite recipes and Mom’s special treats. Maud Borup designs and manufactures licensed, branded, and private-label products supported by an in-house design and merchandising team with over 40 years in the specialty food gift industry. Maud Borup supplies mass and specialty retailers as well as grocery, club, and drug stores with every day and seasonal assortments designed to fit their store needs and customer preferences. <http://www.maudborup.com> <http://facebook.com/maudborup>

#### **About *eco eggs*®**

*eco eggs* is a green, environmentally-friendly division of Maud Borup Inc. committed to making, distributing, and selling quality and safe plant-based plastic Easter eggs and *eco grass*®, recycled paper Easter grass, reducing toxins and harmful emissions to promote positive global environmental impact. *eco eggs* are recognized globally as the first renewable plastic Easter eggs that decompose in industrial compost, or can be stored and reused year after year. *eco eggs* are patented, made in Minnesota, and are 100% plant-based, non-toxic, and durable. *eco eggs* were founded by a woman-owned, veteran-owned company with a focus on business practices that respect employees, the environment, and the earth. <http://www.ecoeggs.com> <http://facebook.com/USAecoeggs>
